Photo Selection F 4 in. x 5.5 in. = \$126.70

Photo Selection G 4 in. x 6 in. = \$138.75

HELPFUL HINTS

If you are having a professional photograph made, please let your photographer know that the best reproduction will come from a 5x7 black and white glossy, with full lighting. This means no artistic lighting that may cause shadows. It is virtually impossible to lighten the shadows without losing all the details in the wedding gown.

If you are submitting a snapshot, a black and white is recommended, and should be at least 3x5. Poloroid snapshots can not be used. Remeber, the better the quality of the photo you submit, the better the reproduction.

If you would like to submit a digital photograph and your portrait is being made by a professional photographer, please let the photographer know the following: Using the same guidelines regarding lighting recommended above, the digital image should be a vertical image set at a resolution of (180 dpi) and should be in a .tif format. If you are submitting your own digital image, please use these same settings. Photographs printed from a computer, even if they are printed on photo paper cannot be used. Your digital image can be submitted by e-mail to celebrations@newsadvance.com or on a CD or floppy disk to: **The News & Advance, Times to Remember, P.O. Box 10129, Lynchburg, VA 24506. If you have any questions, please contact The News & Advance at (434) 385-5500 or (800) 275-8831 ext. 5500. Thanks!**
