

## Redesign and expansion of proposed Lakeside Centre

**What's new with the Lakeside Centre plans:**

**70 more acres** of development on McConville Road near the original 130-acre site.  
**The 130-acre site** has been redesigned, replacing two shopping strips split by a road with a 'town center' layout.  
**City Council** must rezone the 70 acres before it can be developed.
